RESPONSE TO ACTION MAILED MARCH 2, 1998

Please amend the claims as follows (all claims are shown for context and clarity):

Sub FI  
1. (AMENDED FOUR TIMES) A method of

compressing a digital image having at least three textures to reduce the amount of storage space required for holding it prior to a time when the image is to be displayed, comprising:

FI cont'd  
generating a bitmap representing only boundaries separating regions in said image, said boundaries comprising pixels of said image, at least one of said regions comprising pixels of said image;

generating a pointer for each of said regions, each of said pointers associating its respective region with one of said textures; and

Date of Deposit
